## A BIG LEGAL BATTLE IS ON

WOULD CLOSE STREAMS TO FISHERMEN.

Collins vs. Gerhardt Case Attracting Much Attention.

The case of Collins vs. Gerhardt, previously under the caption of Collins vs. Gerhardt and Hammond, is a problem of such far reaching importance that the Michigan Division of the Izaak Walton League has decided to throw all of its resources in the fight to determine once and for all the question of fishing rights in streams and inland waters of the State, in order that sportsmen may know definitely their rights as to fishing. A brief review of the case may not be amiss.

Mr. Collins, who is reputed to be a wealthy steel manufacturer of Toledo, Ohio, owns a strip of land on both sides of the Pine River in Lake County, Michigan, and is trying to keep all people off his property and the river which flows through his land, and for that purpose has erected a fence both at the point where it enters his property and where it leaves. We also understand that he has an option on some eleven hundred additional acres belonging to Judge Cutler in Lake County, which he will eventually buy if he wins his point in court.

We believe his purpose to be one of starting a trespass suit against certain individuals and thereby intimidating people from coming down the river on his property. After a number of trespassers have been prosecuted, he will be able to ask a Court of Chancery for an injunction against everyone, and be able to keep them out of this land by means of proceedings in contempt of court. As near as we can ascertain, the facts are that Mr. Gerhardt and Mr. Hammond came down the river and were warned to keep out of his property when they reached his line fence. They refused to do this and fished down the river through his property. When they got out of the river they were served with summons for a civil case for damages for committing what may be called a technical trespass on the bottom of the river.

The case in the Justice Court has been decided in favor of Gerhardt. Collins has made an appeal to the Lake County Circuit Court, and the case is triable in the term which began the 14th of September.

The facts and legal phases as above enumerated were given us by Harold H. Smedley, General Counsel for the Michigan Division of the Izaak Walton League, who still have a part in fighting this case. In making these statements he says further: "This is a very serious problem as it may affect the rights of hundreds and thousands of people in Michigan who use the waterways for recreation."

"Fishing and more particularly trout fishing, if Collins is successful in doing this, there is no doubt but that hundreds of thousands of acres will be bought up along trout streams in the State and the man who has no such property will be out of luck. Neither of the defendants in this case are wealthy and the fight must be carried on by those in the State who are interested."

Many of the members of Grayling Chapter of the League are contributing to the fund for use in fighting the case in Circuit Court and already a neat little purse has been subscribed.

Anyone wishing to contribute from a nickel to any limit desired may do so by calling any of the local officers or by calling at any one of the local bait shops.

## The Lyceum Course

OFFERS UNUSUAL ENTERTAINMENT AT UNUSUAL PRICE

The Lyceum program this year has been very carefully chosen with the desire to afford the public unusually interesting and entertaining numbers.

We believe that you will agree, after having enjoyed the numbers, that there has never been a better selection of talent for the local course.

The first number is being presented October 14th, by the American Entertainers—"The Company Unusual." This Company consists of two talented young ladies in vocal and instrumental numbers, costumed song numbers and musical readings. The second number also comes in October, on the 29th. This number is presented by Edward Reno, rapid fire magician and expert illusionist. Mr. Reno is a master in magic, has traveled all over the world and ranks close to Blackstone, Houdini and Thurston. The third number comes December 18th, and is presented by the Farnum Trio—"The notable artist entertainers with a varied program that pleases." This number features vocal numbers, piano, harp and violin.

The fourth and last number is presented by Jean MacDonald, January 18th. Miss MacDonald is an entertainer of marked ability and while she has been here once before, she was so well received at that time that a second engagement has been considered desirable.

The Lyceum course this year is being handled by the Epworth League of the Methodist church. The course being strictly a community affair, the Epworth League is trying to make it possible for everyone to take advantage of the excellent talent that is being brought here this fall and winter. To accomplish this end they propose to sell season tickets at a price never before attempted here. Adult season tickets will sell for one dollar. (The second number by Reno is alone worth this amount.) High school students' tickets will sell for 75 cents, with children's tickets selling for 50 cents. Single admission to any of the numbers will be 25 and 50 cents. Naturally with the low price on season tickets a large number must be sold, but the Epworth League believe that the people will appreciate the low cost of such high class entertainment and support them in their effort. Tickets will be on sale next week. Be prepared to purchase them for yourself and family.

ing to the fund for use in fighting the case in Circuit Court and already a neat little purse has been subscribed. Anyone wishing to contribute from a nickel to any limit desired may do so by calling any of the local officers or by calling at any one of the local bait shops.

AT THE SALVAGE SHOP.

We need anything and everything you have for us. There are some good women in the county just now who are trying to fix up a family for the winter who have almost no bedding. Any pieces for quilts will help (or old quilts if you have them.) They are helping this family to help themselves.

Health Center.

## Regional Red Cross Convention Sept. 23

DELEGATES TO COME FROM 16 MICHIGAN COUNTIES

FINE PROGRAM, PROMINENT SPEAKERS AWAIT VISITORS

The big event just now confronting Grayling is the big regional conference of the American Red Cross that is to be held here next week Wednesday, Sept. 23rd.

The meetings will be held in the Michelson Memorial church, beginning at 10:00 o'clock a. m. and continuing to 4:00 p. m. At 12:00 o'clock noon a banquet will be served in the banquet room of the church, and at that time there will be a number of short addresses. T. W. Hanson of Grayling will be the toastmaster. To this feature of the conference the public is cordially invited. At the conclusion of the afternoon session, local committees will take charge and give the guests a sight-seeing trip about the city and to Lake Michigan.

Following is the program as submitted by the committee in charge:

10:00 A. M. Meeting called to order by Chris Olsen, Crawford County chairman.

Invocation of welcome, Marius Hanson, Treas. Crawford Co. Chapter. Morning Topic, Chapter Building.

The Value of a Definite Program. Addressed by Miss Marie Comstock, State counselor for Red Cross, and Chairman Nursing Activities Committee.

Discussion, F. W. Clugg, chapter chairman, Antrim County Red Cross, Janesville, Mich.

Successful Committee Work and its Relation to the Liferent Nursing Service. Sim Lewis, chairman, La Red Cross, Oshtemo County, Gaylord, Mich.

Discussion, Mrs. Earl Chapman, Cheboygan Chairman, County Health Committee.

12:00 Luncheon. Mr. T. W. Hanson, Presiding.

Address, The American National Red Cross in 1925. Miss Edith R. Miller, Staff Assistant Chapter Service, Mid-western Branch American Red Cross, St. Louis, Mo.

2:00 P. M. Planning the Roll Call, Pastor Ernest Ross, Rogers, Mich. Secretary Presque Isle County Chapter.

Discussion, Mrs. Daisy Kraus, Roll Call Director for Crawford County Chapter.

Announcement of National Convention. Summary of high points of the meeting.

4:30 P. M. Drive about Grayling's points of interest.

PAPENFUS-HUFFMAN WEDDING

Miss Helen, daughter of Mrs. Lola E. Papenfus of Lovell, and Mr. Howard R. Huffman, son of Mr. and Mrs. George Huffman of Mio, were united in marriage at the home of the bride's mother, at Dan-4-on-Bussey, September 10th, at 1:30 o'clock P. M.

Attending the bride and groom were Mrs. Rollie Henderson, sister of the groom, of Mio, and Charles Papenfus, brother of the bride. The marriage ceremony was performed by Rev. Fred Hart of Wellsville, Mich.

Mrs. Huffman, who has always resided with her parents except for a year that she spent in Saginaw, is a charming young lady and has a lot of fine friends. The happy couple have the well wishes of a large circle of friends. Mr. and Mrs. Huffman will be at home to their friends after September 15th at Mio-Mich.

N. L. V. S. and L. N. L. CONVENTION FLINT SEPT. 24, 25

The 24th annual convention of the National League of Veterans and Sons and the Ladies National League will be held in Flint on September 24th and 25th. Headquarters for delegates and others attending will be at the Dresden hotel, and the meetings will be held at the G. A. R. hall in that city.

National General J. E. Bradley of Midland, and Mrs. Margaret Holliday of Detroit, national president, will be in attendance. Following is the program:

Sept. 23—National president entertains the executive board at the Dresden hotel.

Sept. 24, 9:00 A. M.—Regular session at G. A. R. hall. In the afternoon memorial services will be held.

6:00 P. M.—Banquet to delegates, complimentary of Camp McKinley No. 4.

7:30 P. M.—Camp fire with good music. Principal speakers, W. V. Smith and Judge W. R. Kendrick, of Saginaw.

Friday—Election of officers. Mrs. M. Clark will be a delegate from Grayling lodge, with Mrs. Fern Feldhauser as alternate.

TO BE LAST GRANGE PICNIC

Crawford County Grange will hold their annual picnic at the home of Charles Corwin, near Cheney, Sept. 19th.

Everyone is invited to come and bring a well filled basket. Supper also will be served for those who wish to remain for the dance in the evening, which will be given in the barn that is being built.

A good time is promised all who come. This will probably be the last picnic the Grange will ever give in Crawford county. By COMMITTEE.

EDITORS TO PLAN ANNUAL E. M. T. DINNER

Executive Committee Meets Sept. 18

That annual joint meeting of the East Michigan Tourist association and the Northeastern Michigan Development bureau will take place at Bay City, October 22 and will be in charge of the newspaper men of the district.

An executive committee of twelve newspaper men will meet at the Wenonah hotel at Bay City, Friday, Sept. 18, to formulate plans for the dinner and entertainment.

Some time ago a letter with a ballot enclosure was sent to each of the newspapers, telling of the responsibility which had been placed upon the editors, all of whom are honorary members of the E. M. T. The letter requested that the choices for the executive committee be marked on the ballots. The ballots have been tabulated and the executive committee selected.

The names of the twelve members of the executive committee follow: W. H. Whitely, Presque Isle County Advance, Rogers City; J. E. Richards, Alpena News, Alpena; O. P. Schumann, Crawford-Avalanche, Grayling; W. A. Grandall, Herald-Times, West Branch; W. H. Gustin, Times Tribune, Bay City; H. S. Babcock, Alma Record, Alma; Michael Gorman, Saginaw News, Saginaw; George English, Huron County Tribune, Bad Axe; R. A. Houghton, Detroit Free Press, Detroit; George Perry, Flint Journal, Flint; B. N. Wynkoop, Jackson Citizen-Patriot, Jackson; Stewart H. Perry, Adrian Telegram, Adrian.

It is the duty of this committee to prepare the entire program for the dinner, including the menu, the naming of the toastmaster, the music and the entertainment features, including speakers.

This annual dinner has become something of a unique institution because of the originality shown in preparing the program. Each year's entertainment has in the minds of many surpassed the preceding year's and it is expected that 1925 will dwarf all others, because the newspaper men have charge.

Speculation is already being made what will be offered, but officials are unable to assuage the curiosity of inquirers. Whether living pictures, vaudeville or speakers of nation-wide reputation will grace the program is entirely up to the executive committee of newspaper men.

HAD NO INTENTION OF CLOSING WEST END HOUGHTON LAKE

In the news columns everywhere will be found announcements of the order by the Michelson Lumber Company of a forty acre tract of land on North Bay, Houghton lake, for a state park. This ought to set at rest the rumors circulated last year that the Michelsons were attempting to close the waters of that end of the lake and the Muskegon river against the public. This was while a suit brought by the Michelson company was pending, to stop certain persons named from hunting and fishing on their lands. The representatives of the company on the ground claimed that what was really intended was to stop commercial hunting and fishing for profit, and save the wild game and fish for the future sportsman.

The Michelsons own practically all of the land bordering North Bay, which constitutes the end of the lake lying north and west of Houghton delcits, and could, if their contention is upheld in the higher courts as it was in the circuit court, close those waters against whoever they desire. But by their gift to the state for the public, they have put it forever out of their power to do this, showing that this was never their intention. The tender covers not less than 80 rods of lake frontage, north of M-55, and is expected that a state highway will soon be built up through this strip, north along the west shore of Higgins lake, past the military camp ground near Grayling. This road is expected to keep as close to the water as possible consistent with good engineering, and to make one of the most beautiful lake shore drives in the north.

It will be another step toward making use of Michigan's lakes and woodlands, not particularly useful for agriculture and making them bring pleasure and health to thousands, and at the same time producing a revenue from taxation that will enable the communities located among these lands to keep up their schools, roads and other public necessities. Lake City Plaindealer.

ARENA COUNTY FAIR STAND. ISH, SEPT. 22, 23, 24, 25

"The Big Fair of North Eastern Michigan" is the Arena county fair Tuesday, Wednesday, Thursday, and Friday, Sept. 22nd to 25th. From all indications this year's fair is going to exceed by far any previous efforts.

The exhibits are certain to be better than last year because of improved weather conditions the past summer. \$5,500 has been spent in free acts including Amaden's Saginaw band, LaForge's dance orchestra for dances in the evening, a thrilling triple parachute drop by two young ladies from a balloon, trained dogs and pigs. Pearl's Carlo in daring aerial acts, two comedy acts, \$1,400 in race prizes, two fast ball games and a magnificent display of fireworks.

## MISSING U. S. FLYERS SAVED BY SUBMARINE

Commander Rodgers and Crew Found Alive Near Island of Kauai.

Honolulu.—Commander John Rodgers, of the missing naval seaplane P.N. No. 1, and his crew of four men, were found alive fifteen miles east of the island of Kauai, by the submarine R-4.

The rescued men are: Commander John Rodgers, Washington, D. C. Lieut. Byron J. Connell, Pittsburgh, assistant pilot. Skiles N. Pope, Jackson, Tenn. aviation pilot. William M. Bowlin, Richmond, Ind. aviation chief machinist's mate. Otis G. Stutz, Terre Haute, Ind. chief radioman.

Rodgers and his crew left San Francisco in an attempted nonstop flight to Honolulu on August 31. The following afternoon, twenty-four hours after his seaplane, the P.N. No. 1, had left off, the plane and crew disappeared about 300 miles from its destination.

The seaplane P.N. No. 1 was equipped with food and water for emergencies. Rodgers and his crew were found in good health.

Up until the fatal news was received nothing had been heard from the plane since September 1, when it

flushed a series of messages indicating that it had been forced down by lack of gasoline into a storm. Then there was an ominous silence.

The island of Kauai is sixty-four miles west by northwest of the island of Oahu. Oahu, of which Honolulu is the principal city, was the destination of the big seaplane.

The plane was sighted floating shortly after four o'clock in the afternoon, when the submarine R-4 started to meet the destroyers coming in from the fleet.

The submarine was commanded by Lieut. R. I. Osborne, Jr., who, upon taking off Rodgers and his crew immediately notified naval authorities, and towed the plane into Pearl Harbor.

Navy Chiefs Happy Over Rescue of Seaplane Crew

Washington.—Officials of the Navy department were deeply stirred by the news that the officers and men of the seaplane P.N. No. 1 had been found in the Pacific alive.

"Thank God for that," exclaimed Secretary Wilbur when apprised over the telephone of the rescue.

Admiral Eberle, chief of operations, made this statement: "It is wonderful news. It is just fine. I can hardly find words to express my gratification."

San Francisco.—Capt. E. Stanford Moses, U. S. N., the man who had charge of preparations for the San Francisco-Pearl Harbor seaplane flight, was so overcome with emotion by news of the finding of the crew of the P.N. No. 1 that he begged to be excused from making a statement.

Plane Commander Rodgers' Family Joyful Over Rescue

Have de Grace Md.—Members of the family of Commander John Rodgers of the seaplane P.N. No. 1 were overcome when informed that the entire crew of the plane had been found alive and well.

Robert Rodgers, brother of the commander, expressed the family's relief and happiness.

"We had always been optimistic," Mr. Rodgers declared, however, adding that the commander's mother had been the most hopeful of all the family. Rear Admiral John A. Rodgers, U. S. N., retired, father of Commander Rodgers, the brother said, was the least optimistic, knowing better than the others the conditions faced by the aviators.

German Arrest Americans

Berlin.—Police in Silesia arrested two American citizens of German birth charged with the organization here of the Knights of the Piety Cross, a Fascist and anti-semitic body identified with the Ku Klux Klan.

Three of Yacht Crew Drown

Have de Grace Md.—Two seamen and a waiter from Alfred I. DuPont's yacht, lying in the Susquehanna river, were drowned by the capsizing of a tender.

## FAIR EXHIBIT BOOSTS CRAWFORD COUNTY

William Feldhauser and wife are not only a hundred dollars ahead because of their venture, in personally fostering a Crawford county agricultural exhibit at the Bay City fair, but incidentally Crawford county's agricultural status has been boosted as well.

While these exhibitors had faith in the merits of Crawford county products, they still stood to lose the post of gathering, shipping, displaying the products at the fair, besides several days of hard labor, had they not been a prize winner.

Just as our county has done each year for several years past, copped the first prize, the exhibit this year did likewise, adding to the glory of being the successful victor with a hundred dollar cash prize. In the exhibit there were the following products: Potatoes, carrots, squash, as, mangles, beets, all kinds of hay and grains, apples and plums.

The Avalanche rejoices with the winners and extends hearty congratulations to themselves and to those who assisted by supplying some of the products.

Coolidges End Vacation; President and Wife Tanned

Washington.—Washington people who saw President Coolidge upon his return from eleven weeks at Swampscott were impressed by his trim physical appearance.

He had acquired just a bit of tan. He walked with a springy gait. He seemed healthy and happy.

But he didn't put on a pound at Swampscott. He tipped the scales at 102.

Mrs. Coolidge was as brown as a berry.

Negroes Kill White Men in Race Riot at Detroit

Detroit, Mich.—Leon Arden was shot and killed and Eric Houghens was shot and seriously injured in a riot in the residential section. The trouble started when a negro family moved into a section previously inhabited only by white persons. The riot shot were wild.

Several thousand persons gathered around the house, but made no attempt to injure the property. The negroes, seeing the persons outside opened fire, witnesses stated.

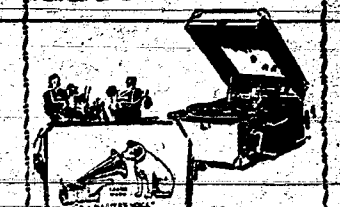

Ship Rescues Sailors

Washington.—The schooner Bowdoin MacMillan's flagship, has reached the steamer Party at Godthaab after passing through an 80-mile rule in which she rescued sailors from a Danish naval vessel.

End Daylight Savings Sept. 27

Chicago.—Daylight savings will end September 27, as the last Sunday of the month, it was announced here. Further attempts to knock out the ordinance are planned.

What has become of the oil-drilling women who used to step into a carway to fix up her stockings?

Little!

But oh my how it can play!

Costs little too. Take one with you.

DEFINING THE "HICK"

Every once in a while you will hear somebody define a "hick" as being a resident of the rural sections of the State. Nothing could be farther from the truth. If there are any "hicks" today it is the underprivileged well-to-do in the city who does not have the broadening influences of our

Take the average Michigan farmer as you will find him today and you will know a man more interested, with more knowledge of economic and social conditions than almost any other class. Today the best journals

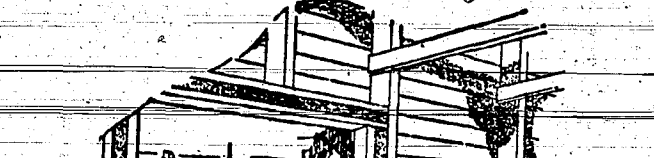

of art, literature and science find a ready sale in the farm homes of the nation. Rarely does the farmer spend his leisure hours in pursuit of vain and useless pleasures. He has his clubs and societies where real issues are discussed, and where the current news of the day is given

the present day farmer is progressive in ideas, methods and equipment. He is conscious of his vital contribution to the nation's life and progress. Because the farmer is still an independent economic unit, an industrial corporation in himself, he is forced to face the big financial, industrial and political issues of the times. We may have returned to him facetiously as a "hick" because he spent some of his money with the Chicago mail order houses, but we wonder if he is to be compared with the Main Street resident who has enough worthless oil certificates to paper a hall bedroom?

## NEWS REVIEW OF CURRENT EVENTS

### Honolulu Flight Aviators Are Found Alive Near Island of Kauai.

By EDWARD W. PICKARD

WHEN hope for their survival had been almost abandoned, the five men who comprised the crew of the Honolulu flight plane PN-3 No. 1 were found on Thursday afternoon, afloat on their plane and all well. Capt. John Rodgers and his four companions had been at the mercy of the sea for ten days when they were picked up by the submarine H-4 fifteen miles east of the island of Kauai. This was considerably outside of the zone previously searched; the plane had drifted about 200 miles, passing to the north of Oahu island on which Honolulu is situated. Lieutenant Osborne, commanding the submarine that found the aviators at once notified the naval authorities at Honolulu, and a later message said the crew and plane were being taken to Nawiliwili on Kauai island.

The members of the plane's crew, besides Captain Rodgers, are: Lieut. Byron J. Connell, assistant pilot, Pittsburgh, Pa.; Skiles N. Pope, aviator pilot, Jackson, Pa.; William H. Bowlin, aviation chief machinist, mate, Richmond, Ind.; Otis G. Stantz, chief radio man, Terre Haute, Ind.

SOMEbody is due to get a sound thrashing in Morocco within a short time, according to current dispatches. It may be the Rifians, against whom the French and Spanish forces are starting a great offensive squeeze movement whose objective is Adir, the capital of Abd-el-Krim. Or it may be the Spaniards in the west sector, for it is reported that the Rifians have them almost surrounded at Tervan and that the capital of the Spanish protectorate is in danger of capture.

At the beginning of the week the Spanish, under the personal direction of Dictator Primo de Rivera, undertook to launch a large force of troops at Albuquerque, bay near Adir, after thoroughly bombarding the Rifian positions on the hillsides. But they apparently overlooked a lot of machine gun nests, for as soon as the legionnaires started wading ashore from the barges a storm of bullets struck them. They fled back to their boats, leaving some 500 dead and wounded. Next day, however, Rivera successfully landed his forces at another point with the assistance of French naval and air units. Sixteen thousand men were debarked and the heights dominating Adir were occupied. Meanwhile the French were moving up from the south and the prospect was that the Rifians would be squeezed from their mountain strongholds.

From Albuquerque bay Rivera hurried to Tetuan, calling for all available troops from the Melilla front on the extreme east. He also urged the French to start an offensive in the Ouezzan sector to relieve the pressure in the Tetuan region, where the Rifians had broken through the Spanish line near Arzila and had cut the Ceuta-Tetuan road and railway. The situation there was considered extremely serious by the Spanish commanders.

Colonel Sweeney and other American aviators who make up what is now known as the Sheridan escadrille are fully embarked on their rather inglorious adventure. Already they have made many flights, dropping thousands of tons of explosives on Rifian villages. Their exploits will not arouse general enthusiasm in this country.

THE revolt of the Senussi against Italian rule in Tripoli is gaining intensity and Musagoli has sent reinforcements of 20,000 troops and 800 airplanes. Rome admits that the Italian forces are being heavily losses. As has been said before, President Kemal of Turkey is supporting the Senussi, partly because he figures the revolt will embarrass the French in

Morocco and partly to keep the Italians from aiding Great Britain in the Mosul dispute. Sheik Ahmed, the Senussi chief, is likely to be made caliph of Islam and leader of a general uprising of Mohammedans against Christian domination.

OPENING the annual assembly of the League of Nations, Paul Painleve, its honorary chairman and premier and war minister of France, made an eloquent plea for world disarmament, urging the delegates of the fifty-four nations represented to prepare a call for a conference as soon as the European security pact and other regional agreements are concluded. By some this was looked on as another attempt of the league to forestall President Coolidge's plan to call another disarmament conference in Washington, but Mr. Coolidge at once let it be known that his chief concern was that such a conference should be held, that its place did not matter so much, and that he would wait to see if there was any chance for the league conference to materialize.

Paul Loebe, president of the German Reichstag, warmly approved of M. Painleve's suggestion but said it did not take the initiative from President Coolidge and he believed the crucial time had come for the latter to carry through his plan.

Senator Dandurand of Canada was elected president of the league for the ensuing year.

Delegate Zahle of Denmark made a proposition that if adopted might increase the opposition in America to adhering to the international court of justice. Briefly, he proposed the creation of a special committee of consultation, officially attached to the world court, to which all states adhering would be obliged to submit "all disputes without any exception."

THAT quarrel over the Mosul vilayet with its rich oil wells is a hard one for the League of Nations to settle. While Foreign Minister Tewfik Rashed Bey of Turkey, now in Geneva, is paid to his bid, the Turks generally are freely predicting that Mosul will be taken from the British under an armistice. Turkish authorities say "Even British statistics show that the Arabs are in the minority in the district. England states there are 785,000 inhabitants in Mosul, with only 185,000 Arabs, but 570,000 Turks. Right is on our side, and also the power to fight a separation of part of the country which is wholly Turkish. We are now trusting to the fairness of the League of Nations."

TWO pieces of interesting aviation news come from Europe. One is that Capt. Roud Amundsen plans to fly over the north polar regions from Spitzbergen to Alaska in a dirigible next year and has obtained an airship from the Italian government. The other tells of the consolidation of sixteen of the European airplane lines under German leadership.

CONTINUED drought and extreme heat during August have reduced the indicated yield of corn to 85,000 bushels, according to the government's latest estimates. The official guess now is that the crop will be 2,885,000 bushels. As an offset to this there is a gain of 21,000,000 bushels in the indicated spring wheat crop, of 75,000,000 in oats and of 8,000,000 in barley. Winter wheat and rye remain unchanged. South Dakota showed the greatest reduction in corn crop estimate—42,000,000 bushels. Minnesota and Illinois each lost 9,000,000 bushels. Kansas and Nebraska each showed big gains over the August estimate.

WHILE Lieutenant Commander Lansdowne and three other victims of the Shenandoah disaster were being laid at rest in the national cemetery at Arlington, Colonel Mitchell continued his attacks on the army and navy air services, inviting court-martial or other discipline, and General Hines, chief of staff, started proceedings that presumably would give Mitchell his desire. Maj. Gen. Eli H. Hines, inspector general, was instructed to make an investigation and he began by sending Colonel Nugent to Texas to ask Colonel Mitchell if he

had been correctly quoted, a necessary step preliminary to possible trial by an army court. Secretary of the Navy Wilbur has made no representations to the War department on behalf of the navy. He did, however, reply to one charge made by Mitchell. The secretary said the Shenandoah had not been sent on her western trip in an effort to make up for failure of the polar flight and the Hawaiian flight. A western voyage had been planned months ago, he said, before the Hawaiian flight was arranged and about the same time that the Arctic expedition was agreed upon. Other of the Mitchell charges were denied by army officials, but the rampant colonel reiterated them, and added, "If the War department doesn't like the statements I make, let officials take any disciplinary action they want."

IN THE best of health and thoroughly rested, President Coolidge brought his vacation to a close last week and returned to the White House in Washington, which in his absence had been entirely renovated. Within a few hours of his arrival he plunged again into the business of running the country, holding a cabinet meeting and taking up, among other matters, the distribution of anthracite coal during the strike, the final preparation of the budget estimates and the selection of an ambassador to Japan. It was rumored that Undersecretary of State Joseph C. Grew would be offered the Tokyo post. The day he left Swampscott the president received a visit from Nicholas Longworth, speaker of the next house, who told Mr. Coolidge it would be easily possible to pass the tax reduction bill in the house before Christmas. He said it might be possible to cut taxes more than \$400,000,000.

NEW YORK'S mud-slinging majority primary campaign is about over, which should be a relief to the metropolis, whatever the outcome. The fight between Tammany and the Hyland-Hearst combination degenerated into a contest between Governor Smith and Publisher Hearst as to which would be the more effective against the other and the other's candidate. Last week odds of four to one were offered that Walker would beat Hyland for the Democratic nomination, and there were few if any takers. It is taken for granted that Hyland, if defeated, will run as an independent candidate, and on this largely the Republicans base their expectations of electing their nominee, probably Mr. Waterman.

CHAIRMAN ATCHISON of the interstate commerce committee has been holding hearings in Chicago on the question of increasing freight rates on the western railroads. Fred W. Sarrett, president of the Chicago and Northwestern, said the unfortunate conditions under which the western railroads are laboring have a direct and depressing relation to the prosperity of the communities served. A reasonable increase in rates will correct this situation, producing greater general prosperity.

Mark W. Potter, one of the receivers of the Chicago, Milwaukee and St. Paul, proposed there be a 5 per cent increase and that its benefits be pooled among the western roads. Charles Donnelly, president of the Northern Pacific, opposed this as "socialistic, impossible, unworkable and in effect a long step toward government ownership. However, it was said Charles Evans Hughes would support the Potter plan in final arguments before the full commission in Washington.

FRANCE lost one of her most eminent statesmen in the death of Rene Viviani, former premier. He was at the head of the government when the war broke out in 1914, and a year later became minister of justice. In 1919 he accompanied General Joffre to the United States, and in 1921 he came with M. Briand to the Washington conference, in which gathering he was an important figure. He was a moderate Socialist and an anti-clerical, and had much to do with the separation of the church and the state a quarter of a century ago. M. Viviani was premier three times and a minister five times. His ability and his patriotism were of the highest order.

Under general smelting processes the raw copper is reduced to liquid copper sulphate. Then iron is added and copper is precipitated and the result is then in shape for final fluxing, limestone being added for the flux.

Thanks to the claim, Bennett learned that iron could be eliminated entirely. The ground limestone is added to the copper sulphate and the precipitate comes forth as copper carbonate and calcium sulphate and is in form to be finally smelted without the addition of any more lime. The process is said to result in a great saving by eliminating iron. It is estimated that the saving will total a cent a pound.

The discovery was made by Bennett more than two years ago, but only recently he received his patent from the government.

Bennett, who already has invented various devices and methods used in smelting, says that if his new plan works out as expected he will adopt the claim shell as his official coat of arms.

## Michigan Happenings

Dr. William O. Hotchkiss, chairman of the Wisconsin state highway commission, has accepted the presidency of the Michigan College of Mines at Houghton, according to an announcement by the college board. He has returned to his home in Madison to wind up his business, preparatory to returning here to assume his new duties when the college fall term opens. Dr. Hotchkiss succeeds Dr. F. W. McNair, who was killed in a railroad accident in Illinois a year ago. Dr. Hotchkiss conferred with the board of control.

Passenger travel through the Keweenaw waterway reached its peak for the 1925 season in August, according to the monthly statement by George H. Banks, engineer in charge of freight and passengers carried. A total of 8,160 passengers were carried through the waterway in August compared with 6,378 in July this year, and 7,388 in August last year. Freight shipments through the waterway in August this year amounted to 133,883 tons against 124,656 tons in July, 1924, and 143,621 in August last year.

Wilmet Jones, 23 years old, son of a broker, held in connection with the death of John (Blackie) Vielloff, cook for a Grand Trunk Railway construction crew at Battle Creek, was freed by Justice Paschal Hughes after preliminary examination at Marshall. Vielloff's body, pierced with six bullets, was found on a lonely road between Bellevue and Marshall August 19.

The new Ecorse road in Washtenaw County, built at a cost of \$146,000 by the State highway construction department with prison forces, was opened to traffic Sept. 12. The new highway connects with the Ecorse road in Wayne County at the county line and will provide a direct paved route from Ypsilanti to Detroit only nine-tenths of a mile longer than the Michigan avenue route.

Altering of the entrance requirements of the University of Michigan continuation of the elaborate building program outlined by the late President Marion L. Burton and encouraged by Dr. Clarence Cook Little, new president of the university, when he takes over his office on September 20, he stated in an interview.

Injuries received in a silo filler explosion were fatal to Walter Paulson, 29 years old, of Fruitport, who died at Hackley hospital. Paulson was directing the work between the engine and filler when pieces of steel fell, striking his back and arms. Farmers believe the explosion resulted from an accumulation of gas that wrecked the filler.

At a meeting of the county road commission at Monroe the Thompson Paving Construction company, of Toledo, was awarded the contract for the construction of Saline street in the village of Petersburg, bidding \$15,994.60. Carl Kiburtz, of Monroe, was awarded the contract for the purchase of \$300,000 bonds on the Detroit road and \$57,900 on the town line road.

Mrs. Florence Prince, 21 years old, Grand Rapids ballroomist, narrowly escaped death at Muskegon, when she substituted for Mrs. Frank Stewart, a local ballroomist, killed in a night at White Cloud recently. The ballroom became entangled when it fell to the ground and Mrs. Prince fell 50 feet to the ground. The woman suffered painful, but not serious injuries.

"I had a headache and was just taking the air," Harry Uptegraft, 23, of Detroit, Michigan State Prison inmate, told guards when he returned to the barracks at the west farm after a posse had searched several hours for him. Uptegraft was sentenced from Detroit for from 2 to 14 years for forgery.

Plans have been drawn for a children's ward to be added to Memorial hospital at Owosso at a cost of between \$6,000 and \$8,000. It will be one of the most modern in the United States. Private donations will finance it. A contagious disease building, just completed, will be opened September 17.

Chased by a bull she was endeavoring to drive out of her orchard, knocked down and gored, Mrs. William Good-55, of Harris, escaped death only as the result of presence of mind. She crawled under the fence as the bull charged for the second time and escaped with a dislocated shoulder and severe bruise about the face and body.

Dr. Lynn Harold Hough, pastor of the Central M. E. church of Detroit, won an indirect approval of his belief and utterances on evolution when a committee investigating similar beliefs of Rev. William H. Phelps, editor of the Michigan Christian Advocate, cleared him of heresy charges. The clearing of Phelps, who printed Rev. Mr. Hough's sermons in his publication, is taken generally by Methodist Episcopal churches as assurance that Hough also will be cleared when Detroit conference meets.

Representative Republican women from various parts of the state met at Lansing and completed organization of the Republican Women's Federation of Michigan. The first step toward such an organization was taken at the Kalamazoo State Convention at Grand Rapids in May, 1924. Mrs. A. T. Hirt, vice-chairman of the Republican National Committee, a tentative constitution was adopted and officers were elected.

The Packard Motor company has filed suit against the city of Detroit in circuit court seeking the return of \$74,497.87, declared to be due because of excess taxes levied against the company. The motor concerns paid a tax of \$265,608.83 under protest, alleging that the law under which the assessment was levied is unconstitutional, and that the difference, \$74,497.87, between the old tax rate and the present one, should be returned. Under 1915 tax regulations the company would have been taxed a total of \$191,119.60.

After all the testimony had been introduced in the circuit court at Monroe in the case of J. J. Corcoran, of that city, against Fred M. Longnecker, asking for an alleged partnership accounting and for the appointment of a receiver, an amicable adjustment was reached whereby Mr. Longnecker sold out his interest in the business to Mr. Longnecker, who will continue the business. The business was established six years ago for the manufacture of paper dishes and it was asserted that the concern had prospered the daily output was 400,000.

Two new offices are planned for Detroit by Secretary of State, Charles J. DeLand, in order to handle the increasing business of his department. For the sale of auto licenses next January an office will be opened in Convention hall, which will have sufficient capacity to take care of the bulk of the licensing transactions. In addition DeLand will open an office at once at 115 Elm Bank building to handle the general business of his department.

Mrs. George Stewart, 40 years old, of Muskegon, who has thrilled thousands of Michigan folk, during the several years she has piloted her craft of balloon and parachute jumper, provided her last thrill at White Cloud when she dropped more than 1500 feet to her death before a throng of 1,800 villagers and farmers gathered for the annual soldiers' reunion and homecoming. Mrs. Stewart's husband and her son, 12 years old, witnessed the tragedy.

The Methodists of Albion settled to the satisfaction of all concerned the question of lay representation to the annual conference when four prominent churchmen debated the issue before a large crowd. Drs. D. J. Martin and R. T. Baldwin defended the affirmative and Drs. Samuel Dickie and W. W. Diehl, upheld the negative. Dr. John L. Seaton, president of Albion college, presided. The audience acted as judges and gave their decision in favor of the negative.

Light, noiseless street cars which can be operated at half the cost of regular equipment and have the same carrying capacity are being experimented with at Grand Rapids in an effort to meet motor bus competition. The experiments are closely followed by the American Electric Railway association. It is contended that if the cars prove practical, street railways will be able to operate more profitably than buses and will provide more rapid and comfortable transportation.

The mining of yellow ochre may become a profitable industry in Dickinson county. John Jacobson and Geo. Nygard, farmers at Metrolina, have started working it on their farms. Shale are being sunk and if the enterprise proves satisfactory, it is planned to obtain capital to fully develop the industry. Yellow ochre now is bringing about \$16 a ton. It is used in the manufacture of paint.

The proportion of girls to men students at the Michigan State College at East Lansing, which has been steadily increasing for the last few years will probably take a big jump this year, according to H. H. Halladay, secretary. To care for the increased enrollment expected, three new dormitories are being fitted out at the college.

Surplus and assets of the Ford Motor company without subsidiaries have reached \$44,624,468, according to the corporation tax report made public by the department of state. Other Michigan properties of Henry Ford will bring his total wealth at least to the billion dollar mark, corporation divestiture attaches expect.

Adhering to the state's petition for an injunction to restrain the Detroit Reduction company from polluting the Huron river will be asked in the Ingham circuit court, Fred Warner, assistant attorney-general said. It is alleged the company contaminates the stream with refuse derived from a soap making process.

Announcement made by Jacob Cohn and Harry Schwell, Chicago capitalists, that they will erect a 600-room fireproof hotel at Potomac on a site on which the Clark Tavern now is located and on adjoining property. Construction will begin next April.

The first units of Michigan's new Jackson prison, to be the largest state penal institution in the country, larger than Joliet or Sing Sing, will be completed this fall, and work soon will be in progress on the first of the huge cell-blocks designed to accommodate 5,180 prisoners. These units, Harry L. Hulbert, former warden, and now superintendent of construction, explained will be the new dye plant and the towering concrete wall that will surround the 64 acres within the prison.

Stealing automobiles became passe at Pontiac with the first report of a stolen airplane turned in to Sheriff Frank Schram. Harry Brooks, youthful aviator, reported the theft, the plane belonging to his friend, Hoyt Brown, of Birmingham. The plane had been taken to a flying field for repairs. In order to fly away with the plane, Brooks told the sheriff, it was necessary for the thief to replace certain parts of the magneto and to fill the tanks with gasoline oil and water.

**Tells Why He Can Now Eat Hearty**

"A letter which I read in the paper about Carter's Little Liver Pills fired my own case so closely that I could not help trying them and am very happy I did." So writes Mr. Frank J. Trumbull of Jersey City, N. J., whose letter goes on to say, "I had heard about Carter's Little Liver Pills for years but never knew they helped overcome poor appetite and sour stomach, until I read about another man in the same plight who took Carter's with good results. I tried them and can honestly say that they freed me of nasty gas-on-stomach, so that I can now eat without getting bilious, and they improved my appetite fully 100%. You can rest assured that from now on I will boost Carter's Little Liver Pills whenever I can."

## KICK THEM OUT

About the worst specimen of hu-  
manity that crawls around over the  
universe, is the smooth-tongued shark  
who makes a practice of selling  
worthless stocks and bonds to women  
who have suddenly come into posses-  
sion of a legacy through the death of  
a relative, usually the husband.

In most cases these women have  
never been schooled in the matter of  
handling money. Always protected  
from the grueling thrusts of the  
world, from its pitfalls and dishonest  
practices, it is no wonder they fall  
easily under the influence of the  
skunk who promises large returns  
and easy days from their investments.

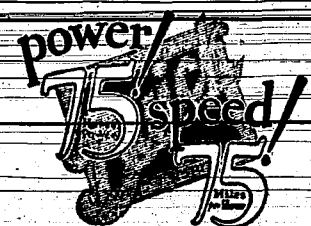

In every city are scores of so-  
called investment houses where every  
morning is conducted a school of  
salesmanship for the purpose of  
training high-powered salesmen to go  
out and separate the unwary from  
their money. Country papers are  
carefully scanned for information  
that will enable them to call at the  
home of the widow shortly after the  
demise of her mate. The expression  
of a little hypocritical sympathy and  
her confidence is soon gained, and  
once gained it is comparatively easy  
to unload shares in some worthless  
enterprise that promises to bring  
rich returns. In nine cases out of  
ten it means the loss of both principal  
and interest.

Many a bereft woman can testify  
in the midst of her grief to having  
trusted here entire fortune into the  
hands of one of these sharks, and in-  
stead of comfort and security in her  
declining days, she was forced to  
again become a breadwinner. All  
this paper can do is to sound a solemn  
warning to beware of this merciless  
tribe. Consult your banker if you  
have money to invest and in every  
case where their advice is followed it  
will be found no mistake has been  
made.

## THE LEGION DRIVE

Michigan has resolutely set itself  
to the task of raising \$5,000,000 as  
an endowment fund for taking care  
of orphans of veterans of the World  
war, the disabled men and their chil-  
dren. It is an undertaking that  
bears with it the best wishes of our  
citizenship to provide care and com-  
fort for those whom the war brought  
grief and misfortune. Ex-congress-  
man Joseph W. Fordney, of Saginaw,  
is chairman of the drive and has called  
to his assistance the leading busi-  
ness and professional men of the  
state.

Since the close of that titanic  
struggle there has been a tendency  
in some quarters to claim the coun-  
try was far from being grateful for  
the services our boys rendered this  
nation overseas. Now is a good time  
for the citizens of Michigan to refute  
this statement by oversubscribing the  
fund. We have only sympathy and  
love for those upon whom the hand of  
war was laid with so much sorrow  
and distress, and the purse-string of  
no patriotic citizen should be tight-  
ened in the face of this appeal.

**Better BUICK owners  
are Masters of the Road**

Once you have driven the 75 horse-  
power, 75-mile-an-hour Better  
Buick;

Once you have wheeled it over some  
particularly tough hill—in high  
gear—gaining speed all the way;

Once you have observed the way it  
assumes the lead in traffic;

Once you have accepted, on some  
open road, the challenge of some  
car that boasts of speed, and have  
seen the Better Buick leave it far-  
ther and farther behind;

Once you have checked its econom-  
ical gasoline consumption against  
your friends' cars—

Then you will realize fully that the  
Better Buick, with its 75 horse-  
power Valve-in-Head engine, gives  
you power, speed—and an inex-  
pensive performance like no other  
car you have known.

The best way to discover how very  
much the Better Buick has added  
to the pleasure of driving is to drive  
a Better Buick. We have one wait-  
ing for your telephone call.

## BE ON YOUR GUARD

It is only during times of great  
political activity that the voice of  
socialism is raised so that it com-  
mands more than passing attention  
from the average individual. At  
such times, and under the wide lat-  
tude accorded political speakers, do  
they become bold enough to openly  
advocate the overthrow of existing  
conditions and an entire rule by state.

But the work of spreading social-  
istic propaganda in this country is  
going on all the time. While we are  
slumbering in supposed security the  
paid agents of the red soviet are  
practically making a house-to-house  
canvass sowing the seeds of discord  
that some day may flame into a real  
conflagration. American workers are  
the best paid in all the world. More  
of them own their own homes and en-  
joy greater comforts than of any  
other nation. Universal history re-  
veals that many a birthright has been  
sold for a mess of pottage and it is  
well to bear in mind that only thru  
eternal vigilance can we retain this  
wonderful heritage handed down to  
us at such great cost and sacrifice.  
Be on your guard and strike down  
socialism, wherever it raises its slimy  
head.

## LIBERTY OF THOUGHT IS VITAL

Wendell Phillips (1811-1884)  
"The right to think, to know, to  
utter," as John Milton says, is the  
dearest of all liberties. Without this  
right there can be no liberty to any  
people; with it, there can be no slav-  
ery. When you have convinced think-  
ing men that it is right, and the  
humane man that it is just, you will  
gain your cause. Men always lose  
half of what is gained by violence.  
What is gained by argument is gained  
forever. Let us believe that the  
whole truth can never do harm to the  
whole virtue. The last lesson a  
man ever learns is that liberty of  
thought and speech is the right of all  
mankind; that the man who denies  
every article of our creed is to be al-  
lowed to preach just as often and  
just as loud as we ourselves.

hound, 2 years old. Charles Austin.

FIRST OF IMPROVED FORDS AR-  
RIVE HERE

Cars Most Attractive, with Longer  
Lower Bodies, Many Other Re-  
finements, Better Brakes

First of the improved Ford cars to  
arrive in Grayling went on display  
last week in the show rooms of Geo.  
Burke, local authorized Ford dealer,  
and immediately attracted the at-  
tention of everyone.

To say that people who saw the  
car were surprised at its appearance  
would be putting it rather mildly.  
The new types exceed all expectations  
in improved appearance and more  
comfort and convenience. For the  
most part the bodies have been com-  
pletely redesigned and conform in  
every respect to the most advanced  
features of body construction.

Not only have bodies been built  
lower, but they are set on a lower  
chassis frame and with larger, low-  
hanging fenders impart to the com-  
plete car a striking suggestion of  
filigree and driving ease.

While Mr. Burke has been able so  
far only to show the touring car,  
other types will be shown as quickly  
as they can be obtained from the Ford  
Motor Company branch at Detroit,  
where because of their popularity  
demands on production are some-  
what delaying immediate delivery of  
all types of cars.

What has become of the old-fash-  
ioned baddy who utters to say, "Com'on,  
boys, this one is on the house?"

PARENT-TEACHERS ASSN. OR-  
GANIZED AT FREDERIC.

Several parents met with the  
teachers at the Frederic school at  
the regular business meeting Tues-  
day afternoon, Sept. 8, at 3:30 o'clock  
and organized a Parent-Teachers  
association.

Mrs. Wixom was elected president;  
Mrs. Edmonds, vice president; Mrs.  
Gedeh, secretary; Mrs. Garrott,  
treasurer. The officers hope more  
parents will meet with them at their  
regular meeting September 28.

**PARENT-TEACHERS MEETING,**  
MONDAY, SEPT. 28.

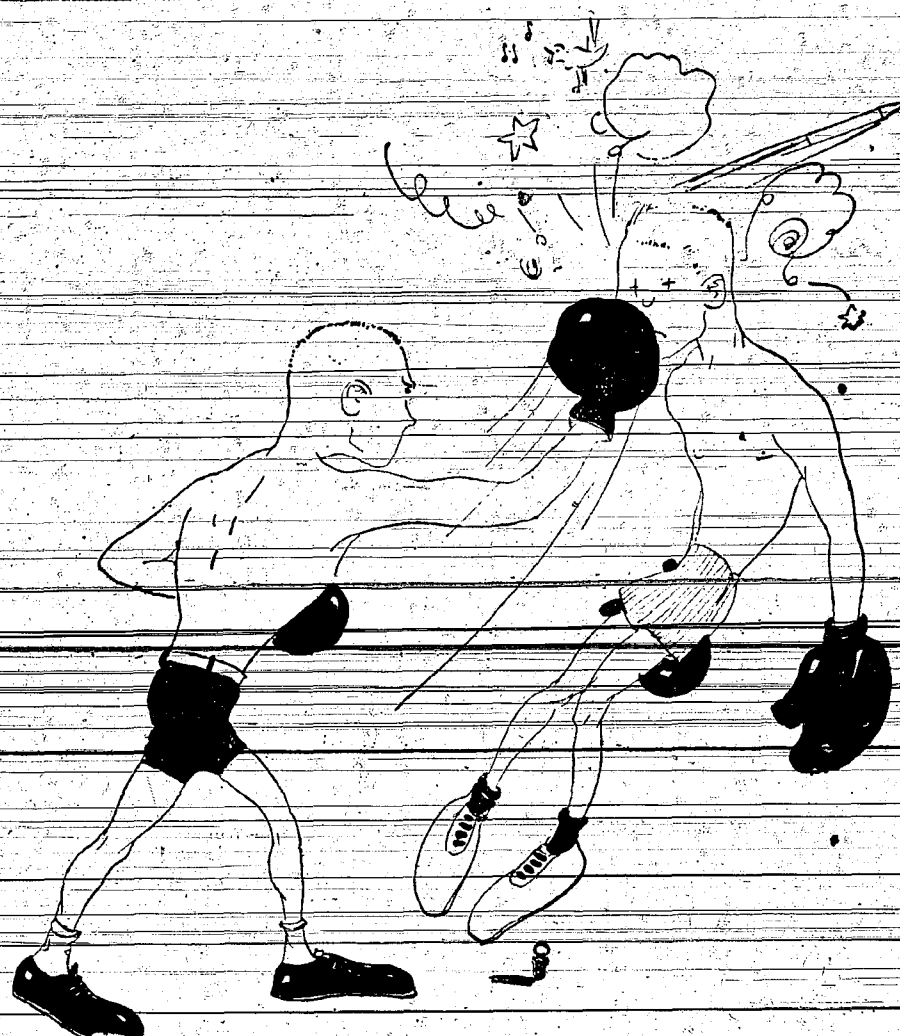

All parents and school patrons are

invited to attend a meeting of the  
Parent-Teachers association to be  
held at Frederic school auditorium  
on Sept. 28, at 8 o'clock sharp.

Refreshments will be served after  
a short business meeting and pro-  
gram. Come and show an interest in our  
school.

The next time you feel that every-  
thing is just the way it is, just  
try lighting up your part of it with a  
little

is certainly peculiar. Ever  
notice how too many peddlers will  
show the grass grow in the village  
streets?

A KNOCK OUT

## NEW STORE!

WILL OPEN

Next Thursday, Sept. 24th, 1925

The doors will be open at 10 A. M. sharp.

Be sure to pay a visit on the Opening Day because the big bargains will go like hot  
cakes. We do not ask you to buy; come and get acquainted. You will find this to  
be a nice clean place to do business. The new plate glass front makes it attractive  
from the outside and you will not be disappointed on entering, for a nice clean stock  
well displayed at popular prices is facing you, and pleasant clerks are there to  
serve you. We believe this store will fill a long felt want; a store where people of  
this vicinity can buy less expensive household needs.

## OUR 5 AND 10 CENT COUNTERS

are full of wonderful bargains in useful articles and it will be our aim to keep these  
counters filled with the best we can find on the market of the world, and only such  
articles that are actually worth the price and will give service as tolerated on the  
tables. No trash at any price.

Remember the Day, Sept. 24.

## LOCAL NEWS

THURSDAY, SEPTEMBER 17, 1925

For every country church that is rebuilt a new community will be saved to some of the old-fashioned ways of our forefathers. It is one of the finest movements of modern times.

A fine line of exclusive pattern hats at the Hat Shoppe.

Mrs. Elma Hemmison and daughter Doris have gone to Mt. Pleasant where they expect to remain for the winter.

Mr. and Mrs. Benjamin Laurent of Whitehall, Mich., visited the former's parents, Mr. and Mrs. Mose Laurent, over Sunday.

Mrs. Willard Campbell returned last week to her home in Mt. Pleasant after visiting her parents, Mr. and Mrs. Fred Hanson for several weeks.

Mrs. Carl Mickelson of Mason and Mrs. C. G. Clippert will give musical numbers at "Esmerelda" Monday evening, Sept. 21, at the school auditorium.

Mrs. Harry Robinson and daughter Doris, who have been visiting her parents, Mr. and Mrs. Max Lundberg for several weeks, returned to their home in Detroit today.

Mothers, stop darning. Buy your children's hose at Redson & Cooley's. Wear to your satisfaction, or replaced with new pair. Price 50 cents.

Miss Helen Johnson, who is making her home with her sister, Mrs. Earl Redson & Cooley, has accepted a position in the real estate office of Mr. S. G. Nicholls of that place.

St. Mary's Altar society are meeting this afternoon with Mrs. Marius Hanson at Lake Margrethe, when election of officers for the ensuing year will take place.

Felt and velvet hats for the little folks, at the Hat Shoppe.

Father E. J. Walters of Byron Center, and Fr. A. O. Boaler of Remus, both former pastors of St. Mary's church, arrived in Grayling the fore part of the week and are visiting friends.

Miss Ellen Johnson of the Mercy Hospital Training force has been enjoying a two weeks vacation, spending it among relatives and friends in Detroit and Mackinaw City and her home near Roscommon.

Miss Agnes Hanson of the Sorenson Brothers store is enjoying a week's vacation. She is spending a few days of the time taking in the Fair at Gaylord, while there being the guest of Miss Helen Johnson.

A new cement block foundation has been built under the Danish-Lutheran church, and new steps to the front and rear entrances. A fine new furnace is to be installed before the cold weather sets in.

Miss Nina Sorenson, a graduate of this year's class from Grayling High school is in Detroit, where she expects to enter a hospital to train for a nurse. Miss Louise Sorenson is in Grand Rapids, where she expects to remain indefinitely.

James McNeven of the Salling Hanson company hardware store and wife, and their daughter Miss Ruth, who is employed as stenographer in the office of Attorney M. R. Nellist, expect to leave Friday to spend a week visiting relatives in Detroit and Flint.

Miss Anna Fisher has completed her course at the Mercy Hospital training school for nurses in this city. She returned to Grayling Saturday after enjoying a couple of weeks vacation at her home in Cheboygan, leaving Sunday for Grand Rapids, where she will enter St. Mary's hospital to take a six months course.

On Saturday, September 26th there will be held at the school house a vocational guidance clinic. This is intended for people of all ages from school children to the parents. Everyone is cordially invited to attend and all will be welcome. Any further information desired may be obtained by applying to Mrs. Squires, county health nurse.

Mrs. Montroy of Detroit, who had been a patient at Grayling Mercy Hospital for a couple of weeks as the result of receiving injuries in an automobile accident, left Saturday for East Jordan to visit her son. She was accompanied by Miss Amborski of the hospital. Two other ladies, who were with Mrs. Montroy, have returned to Detroit.

"Esmerelda," a three-act play by Frances Hodgson Burnett is an interesting love story, with its ups and downs in simple country life in Carolina. An ambitious mother disturbs the course of true love. The simple-hearted old father presents a unique scene of humor while in Paris. You will be fascinated by the story given at the school auditorium Monday evening by Mildred Bass Anderson.

We wonder if it isn't time that the State Conservation department paid more attention to the planting of black bass in Lake Margrethe. This lake has been wonderful in the way the good fishing has kept up, but it shouldn't be allowed to decrease too much before being generously restocked. A carload of black bass fry annually for a number of years should be allotted to this body of water.

If you have read "Esmerelda" you will be particularly interested in its presentation by Mildred Bass Anderson at the school auditorium next Monday night. If you have not read the story you will be so interested and refreshed after you have heard Mrs. Anderson present the story next Monday evening that you will wish to procure the story at once. The entertainment is presented by a number of fine musical numbers will be given by the Good Fellowship club Sept. 21.

A real treat is in store for those who attend. Mrs. James E. Richards closed her cottage on the west shore of Lake Margrethe Tuesday and returned to her home in Dayton, Ohio. She was accompanied by Mr. and Mrs. C. W. Luddek, also of Dayton, who had been at the cottage since last July. Mr. Luddek is a lover of fishing and while others were indulging in the pastime of pike fishing he was happily busy with the old black bass. He said he was sorry he did not keep a record of his summer's catch but believes that he caught more of that variety than any other fisherman on the lake. Each year they look forward to the time when they may return to their pleasant home near Grayling.

For several weeks past workmen have been busy remodeling the store building and putting in a plate glass front in the Fischer building west of Sorenson Brothers' furniture store for that firm, which will be used as a variety store. A complete new stock of goods has arrived and when on display will make this an attractive store. The five and ten cent counters will be sure to draw their share of patronage. The store will be formally opened for business next week Thursday, Sept. 24th. Floyd McClain has been engaged as manager and will devote his entire time to the business. An advertisement of this new place of business appears on another page of this issue of the Avalanche.

Members of Grayling Lodge, F. & A. M. enjoyed a fine time Monday night when Grand Lecturer Gilbert was present and conducted a school of instruction. Present at the meeting were also the officers and many members of Roscommon, Gaylord, West Branch and Lewiston lodges. Mr. Gilbert specially complimented R. D. Conine on his work in the second section of the third degree and to Juliette Jensen on her work as senior deacon. Also William Curnalia of Roscommon lodge was highly complimented upon splendid recital of the Masonic lectures of the third degree. After closing the lodge the men enjoyed a very fine banquet in the Masonic banquet room. This had been prepared by Mrs. Jesse Bohenmeyer and her assistants and was very appetizing and delicious, and was probably the finest spread the Masons have enjoyed in many years. The dinner won many fine compliments. Geo. Olson master of Grayling lodge welcomed the visitors and introduced T. W. Hanson who was to act as toastmaster, and a number of pleasing and inspiring talks were given. It was a very pleasant evening, thrifty and heartily enjoyed by all present.

Caretaker Geo. Schaible of the Military reservation is ill and under the doctor's care.

Miss Margaret Jensen of the Salling Hanson company office left Saturday for Shelbyville, Illinois, to visit her parents for a couple of weeks.

Your made-to-order hats will be taken care of again this season by Miss Amborski. We will be pleased to have your patronage.

Mrs. Jerry Sherman is enjoying a month's visit in Canada, at present visiting her father at Manitolin Island, Ontario. She was born at the latter place and left there 25 years ago.

Mrs. Loyl Cameron and son Robert of Detroit who have been visiting relatives in Grayling, left Saturday to be the guest of her sister Mrs. Edward Strehl at East Jordan for the week.

Mrs. Elmira Jennings and Mrs. Mary Dero returned home Tuesday from Alma where they had been in attendance at a church convention. Lloyd Jennings brought them home by auto.

Miss Rosemary McGuire of DeWard, who has been attending school in Grayling the past four years, is attending school in Manistee this year and making her home with her sister, who resides there.

Mrs. Minnie Dougherty has resigned her position as clerk at the Grayling Mercantile Co. store and is now taking a course in beauty culture under the instruction of Mrs. Ruth McConnell at the Vanity Box.

Lorane Sparkes of the Bank force is enjoying a ten days vacation trip, complimentary of the Sun Life Insurance Company of Canada, whom he represents in this section, he having written a certain quota of business for the year. He left Sunday night and the trip takes him to St. Andrews by the Sea and New Brunswick.

The public is cordially invited to attend the Red Cross convention banquet at the Michelson Memorial church Wednesday noon, Sept. 23rd. Tickets \$1. Only a limited number for sale. At this function there will be an address on the subject "1925 American Red Cross." Tickets on sale at the drug stores.

Mr. and Mrs. Harry H. Leng and Mrs. William Griffith, all of Chicago, arrived here Sunday to spend a few days with Miss Jennie and Mr. Tom Ingley at their cottage "Wildwood" on Lake Margrethe. Mrs. Leng was formerly Miss Lawrence Watt and resided in Grayling. This is the first Mr. and Mrs. Leng have met Mrs. Leng in 27 years. The visitors are so well pleased with Lake Margrethe that they have hopes of buying a cottage and coming here for their summers.

Charles Duncan and Norman Marsh of Roscommon, charged with violation of the game law, were found guilty in Justice Kraus' court Wednesday afternoon and sentenced to pay fines of \$50 each and \$3.45 costs, and in default of the payment of such fines and costs, be imprisoned in the county jail for a period of 30 days. The complaint was made by Game Warden James Husted, who, in his testimony claimed that the men had prepared a "salt lick," which is an attraction to deer and had a place nearby provided with a Hot-Shot battery and a auto lamp, and the men carried rifles. The people were represented by Attorney Merle Nellist and the defendants by Attorney William Yeo of West Branch. The latter has given notice of appeal to Circuit court, on the point that the complaint fails to specify under what act the complaint was drawn.

## MY FAVORITE STORIES

By IRVIN S. COBB

### Guilt on the Very Face of It

A great many persons who know and admire the dark stories of E. K. Means are not aware that this author is, at his home in Jackson, Miss., the Rev. E. K. Means, pastor of Galloway Memorial M. E. church. South. He is a zealous clergyman, a gifted speaker, and a fluent writer, but being, as befits a clergyman, a truthful man also, Mr. Means would be the last person to lay claim to great personal beauty.

As his friend, I feel that I may repeat this story at his expense, especially as he himself told it to me. He had been gazing at my printed likeness and he was reminded of an experience of his own. I quote his words:

"Once upon a time my picture was published in a small weekly newspaper in a village in Louisiana. I was standing in the post office when a farmer entered to get his mail. He opened the little paper and gazed with fascination at my countenance. He held the sheet close to his nose, then extended it to his arm's length, trying to focus his dim eyes on the vision. He fumbled in all his pockets and brought forth his hands empty of the thing he sought."

Then he remarked to the world at large:

"I left my specs home and I can't see who this here feller is. I don't know what he done, neither, but by d—n, he's guilty!"

### Total Loss!

For the first time in the history of the state—it was a southern state—an electrocution took place within the walls of the state prison. The legislature, keeping step with the march of progress and civilization, had ordered the installation of an electric chair to take the honored place of the old-fashioned slip-noose under the left ear.

A negro "trusty" was an unwilling witness to the first performance under the new arrangement. The warden had detailed him as helper to the paid executioner. He issued forth from the lethal chamber with popped eyes and ashen face.

A group of his fellow convicts knotted about him anxious to hear the grisly details. He proceeded to elucidate:

"Well, suzz," he said, with a shiver, "they takes an' straps you down, hand an' foot, in a big cheer. An' den they clamps some ill' things onto your widdle an' no' lakas. An' den one of de white men he step over to whar dey's a little jigger in de wall an' he give it a lil' yank—zizz—lak dat!"

Here he paused and fetched a deep breath.

"What den? what den?" came the chorus.

"Nothin' but rain—jes' absolute ruin!"

### Making It Four of a Kind

Judge Isaac Russell, chief justice of the court of special sessions of New York city, went on a private and unannounced tour of inspection among the various corrective and charitable institutions of his jurisdiction. Late in the afternoon he entered the outer office of one of the insane asylums.

"I should like to make a trip through this place," he said to an underkeeper who chanced to be in sole charge of the office temporarily.

"Visitors' days are Wednesdays and Saturdays," said the keeper shortly, "and besides, it's after hours."

"But I insist on being shown through," said this honor.

"Well, you've got a nerve!" growled the keeper. "Who are you to be givin' me orders?"

"I am Chief Justice Russell of the Court of Special Sessions," was the answer.

"That'll be about all," said the keeper wearily. "We've got three of you in here now. Why don't you call yourself George Washington—there's only one of him!"

### Absolutely No Reason for It

Harry Beresford, the actor, was born in England but has lived long enough in America practically to have recovered from it. One fall a friend sent him two tickets for one of the world series ball games at the Polo grounds, and he took with him to the game a newly arrived Englishman, a distant kinsman and also an actor.

The stranger sat patiently enough through seven innings. The whole riotous proceeding was a puzzle to him but he was too polite to mention it. Then, when the mighty crowd, following the baseball custom, stood up to stretch, he rose, too, and started for the aisle.

"Hold on!" said Beresford. "It isn't over yet."

"I was only going to get a cup of tea, old chap," explained his guest. "You can't get tea now."

Said Beresford, "the game goes right on."

"You mean to say there is no tea being served?" demanded the Englishman in amazement.

"Certainly not!" said Beresford. "Well," demanded the other, "what, then, is the purpose of the ball game?"

### Alaska and Hawaii

The territories of Alaska and Hawaii are represented in congress by one delegate each. These delegates have the right to speak on the floor of the house of representatives, but have no vote. Of the other dependencies, the Philippines and Porto Rico have representatives with similar privileges. These are called resident commissioners and the Philippines two. The commissioners do not vote. All of the territories and possessions have prohibition.

## SIMPLE FROCKS FOR SCHOOL; FLARE IN COATS PARIS EDICT

HERE'S guessing, Miss Schoolgirl, as to a very important subject which will be receiving your due attention this semester, together with your perusal of Latin, Greek, higher mathematics and kindred kind—Clothes! Aye! there's a study which never loses in interest to the feminine mind; indications are that the subject is going to prove more fascinating than ever this season.

Of course if you are to prove an apt student in the art of good dressing, it is necessary to first of all aim to wear clothes appropriate to the time and

enough to supply a dash of color. Be it said that these velvet frocks prove very serviceable.

Bolero effects in misses' fall frocks are being featured, and these insure a youthful aspect. Necklines in daytime dresses are youthful, one might almost say boyish, especially the little turned-down shirt collars with narrow ties or ribbon bows. Sleeves, barred from elbow to wrist, peasant sleeves puffed and cuffed characterize some of the newer gowns.

Let there be a decided flare, so comes the edict from Paris, and the

Pretty Models for Schoolgirl.

the occasion—which for the schoolgirl may be expressed in one word—simplicity. There is no costume quite so apropos for schoolgirl needs as the one-piece frock, or two-piece if you will, fashioned of fine cloth, navy blue the preferable color. It's the way how good it is to know that navy blue is "the style" this season. In fact all shades of blue are coming in for a successful run, he they classed as royal, copper, navy or pencil blue.

The frocks here pictured are well chosen models for "first day of school" wear as well as for the time to follow. Smart style places particular stress on the long sleeve. This matter of wrist-length sleeves forgets an incoming era of dainty lace and lingerie, with collar or frilly accessories to match.

thought is visualized in the newer coats and frocks which abound in fullness below the knee, attained through clever insets, shirred portions or circular portions. There is also in the smartest Parisian costumes a suggestion of the semi-fitted effect. With all this infusion of refreshingly novel ideas into its styling, it is not to be wondered at that the tailored coat for fall and winter has become a subject of careful interest in the realm of fashion.

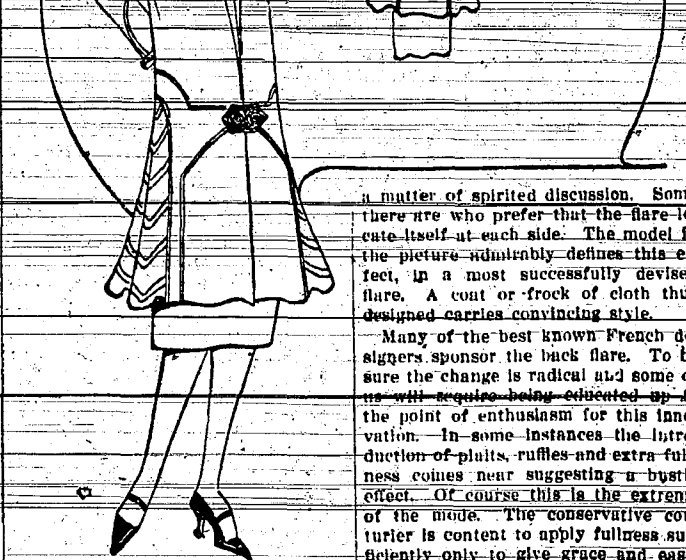

If there is one thing more than another that the new modes teach us it is that even our tailored topscoats and dresses have departed from the straight and narrow silhouette. As to fullness about the neck, fashionists do not hesitate, but as to whether the flare shall be back or front or all around, is

a matter of spirited discussion. Some there are who prefer that the flare to itself at each side. The model in the picture admirably defines this effect, in a most successfully devised flare. A coat or frock of cloth thus designed carries convincing style.

Many of the best known French designers sponsor the back flare. To be sure the change is radical and some of us will require being educated up to the point of enthusiasm for this innovation. In some instances the introduction of plaits, ruffles and extra fullness comes near suggesting a bustle effect. Of course this is the extreme of the mode. The conservative couturier is content to apply fullness sufficiently only to give grace and ease. Fine cloth whereon much of intricate detail is applied in the way of braiding, embroidery, fur and the like, furnishes the basic idea for daytime frocks and coats, which promise to be dressier than for many seasons past. It is noted that gray is being featured throughout fall modes, while blue in tones from navy to pencil blue are conspicuous. Sumac red and soft dull greens indicate new color tendencies.

As to fabric, woolen rep is a favored medium. There are many trotteur dresses and coats of navy rep trimmed with details of red, rust, or violet.

JULIA BOTTOMLEY.  
(© 1925, Western Newspaper Union.)

Example of Coat Flare.

Graceful streamlining ties, too, are given much consideration when it comes to designing schoolgirl modes.

Wool rep is a favored medium for the practical frock with bright colored flannels competing in no small degree, in Buhrigian, and jersey dresses are at the height of their popularity. The smart new note is sounded in the simply tailored velvetene frock. These may or may not display a quantity of tiny buttons not so much in a trimming way but as if fastening the frock at the front. Sometimes there are plaid silk facings or pocket flaps, just

flare upward, they are almost as high as the crown itself. Hat plus decorative many of the sports models with one end representing animals or birds stalking or preparing to attack another at the other end.

**Violet and Peacock Blue**

Extremely new is a frock of deep-violet-satin that has two jabots, lined with peacock-blue satin, reaching from shoulder to hem. A soft belt of the purple lined with the blue ties elegantly across the front of the dress.

**On the Head**

Off the face, but on the head. That is a fair description of the small hats imported from Paris. The brims turn back sharply in front and as they

## Daddy's Evening Fairy Tale

By MARY GRAHAM BONNER

### THUNDER AND LIGHTNING

"Come on, hurry along," said Old King Thunder to Old Queen Thunder. "Let's have a surprise party to the Earth people."

"Let's do that," said Old Queen Thunder.

"Now, as you know without a doubt, when Old King Thunder speaks to Old Queen Thunder they tell at each other and roar at each other at the very 'tip-tops' of their voices."

"This is the way they enjoy talking. Just the way we will talk in fairly low voices, or about only when we are excited, they shout if ever they speak. Sometimes their voices are louder than at other times, but they never speak in low tones."

"They love their noisy, loud conversation, and they have brought up all their children to talk in the same way. Can you imagine belonging to a family that never once said:

"You would never hear that if you belonged to the Thunder family. In fact, many a time has King Thunder shouted to one of the Thunder Cloud children and said:

"What a weak little rumble. How louder. Give a real rumble. Let's hear how you can do it."

And then you will notice that the little distant rumbles and the little roars become stronger and louder, and then great, great rolling ones are louder than all."

"The huge ones are King and Queen Thunder talking. The ones that get louder and louder but never the loudest of all, but yet are very loud rumbles after having been little ones—they are the children."

"It's cold weather now," said Old King Thunder, "around here, and they don't expect one of our storms at this time of the year, so we'll just give them a good surprise."

"You have the grandest ideas," said Old Queen Thunder.

Old King Thunder and Old Queen Thunder rest when they are not having parties and noisy talks. That gives them so much more strength and energy when the time comes for a good stormy time."

"They went where it was warm most of the time, but now and again they like to surprise people, and they come suddenly around when it just seems too silly to have a thunder and lightning storm."

"They called their Lightning friends and asked them to join their fun."

And as you know the Lightning family and the Thunder family have been friends for years and years."

No two families are greater friends than these two."

Well, the Thunder family and the Lightning family went rumbling and crashing and yelling and roaring and flashing and forking about their sky playground, and the Thunder children played hide and seek around the mountains and the hills."

And then along came the Raindrop children and Old King of the Clouds and then there was excitement."

"Not only were they having their party when it was cold but they had it in the middle of the night."

"People got up out of nice, warm beds and pulled down windows in bedrooms and the noise was so great hardly any slept through it."

It quieted down soon again, but not until it had given almost everyone enough noise to wake them up."

The Thunder family and the Lightning family had other plans and engagements and could not stay around long, but they had a splendid little surprise party and said they loved parties which were arranged on the spur of the moment."

"That's the way with my dear old King," roared Old Queen Thunder. And the Old King added:

"That's the appreciative kind of Old Queen I have."

"Our dear parents," said the children.

And the thunder gradually died away, and the lightning disappeared, and only the rain remained around for awhile."

### Conundrums

"When would it seem that a lawyer is out of temper? When he asks cross-questions."

What is it that you cannot see though it is always before you? Your future.

How do extravagant dresses differ from law books? The first are costly modes, the second mostly codes.

## MRS. BORGELIN'S REMARKABLE RECOVERY

Gives Credit for Restored Health to Lydia E. Pinkham's Vegetable Compound. All Women Interested

MRS. OSCAR F. BORGELIN  
FOREST CITY, IOWA.

Forest City, Iowa. — "My first child lived only a short time and I was sick for a year after. When I bent over and raised myself up again I could almost scream with pain in my back. One day I was so bad that I had to leave my washing and get ready to go to the doctor. He gave me medicine, but it did no more good than if I drank just water. Once when we had been in town a little while telling about Lydia E. Pinkham's Vegetable Compound was left in our car. I have taken five bottles of the Vege-

table Compound now and I do all my housework and help with the milking, and taking care of chickens and garden. Besides I have a fine baby girl eight months old, just the picture of health, and I am feeling fine myself. You may use this letter as a testimonial and I will answer any letters asking about the Vegetable Compound." — Mrs. OSCAR F. BORGELIN, Route No. 5, Forest City, Iowa.

### A Bad Case of Nerves Relieved

Denver, Colorado. — "I was very dependent, blue and sad all the time, which is worse than real pain, and extremely nervous, with no appetite. I was this way for about two years and thought no one cared for me. My mother had the same trouble and had taken Lydia E. Pinkham's Vegetable Compound for it. I tried everything else, then I began to take it. I soon had a better appetite and restored mental condition. I moved to a bright, sunny house, began calling on different people, and changed many myself up again. I could almost scream with pain in my back. One day I was so bad that I had to leave my washing and get ready to go to the doctor. He gave me medicine, but it did no more good than if I drank just water. Once when we had been in town a little while telling about Lydia E. Pinkham's Vegetable Compound was left in our car. I have taken five bottles of the Vege-

## Children Cry for Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children of all ages.

To avoid imitations, always look for the signature of *Dr. J. C. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Of two evils the lesser is always to be chosen.—Thomas a Kempis.

Sympathy without help is like meat without meat.

## In bed four months ... now a well man

Gives Tanlac full credit.

Over twelve years of stomach misery had made a physical wreck of Jacob Ferdinand. He spent hundreds of dollars seeking relief but every attempt failed until he tried Tanlac. This great tonic brought him immediate relief. "After seven bottles," he says, "I am a well and happy man. I will gladly talk to anyone personally and will answer all letters regarding my experience with Tanlac. For it proved a god-send to me."

\*Authentic statement. Address on request.

Tanlac is Nature's great Tonic and builder. Compounded after the famous Tanlac formula, from roots, barks and curative herbs alone, it is absolutely harmless. Millions owe their health and happiness to this great remedy.

Don't let stomach trouble make your life miserable a day longer. Get a bottle of Tanlac at your druggist's at once. The first dose will make you feel better. You'll be a new person with the sparkling eyes and rosy cheeks that come from perfect health.

NOTE: For Constipation, take Tanlac Vegetable Pills. Nature's own harmless laxative.

McDonnell Poultry Farm.

This is the time to begin taking music lessons. High class instruction in piano and violin. Prof. O. L. Reed.

Mr. and Mrs. James Jorgenson and son Axel and Mr. and Mrs. Johannes Rasmussen motored to Cadillac Friday and spent the day. Axel Jorgenson returned that night to his employment in Detroit.

Nyland Houghton and Archie Cripps left Monday for Ann Arbor to visit the former's brother Esmond, who is employed in that city, and they probably will remain there if they find employment.

Mr. and Mrs. Rasmus Jorgenson returned Monday morning from a ten days visit in Detroit, Flint and Saginaw, the guests of their daughter Mrs. Ralph Warner in Detroit and friends in the other places.

Mr. and Mrs. Adam Gierke and family enjoyed a visit from their son Frank, wife and three children, Misses Mildred and Clara and Robert of Manistique over Sunday. They were enroute from a visit in Detroit.

Mrs. Clara Melrod left Tuesday for Detroit to visit relatives.

Phone 918 for milk and dairy supplies. Grayling Creamery.

The Grayling Electric Company are in need of laborers. Apply at office.

Kirt Kitchen left last week for Idaho to visit his brother Carl Kitchen.

Mr. and Mrs. William Gody have returned from a vacation trip to Flint and other places.

Henry Buresky, who has been in Caro the past year is visiting among friends here this week.

Grayling base ball team will go to Onaway last Sunday to play a return game with the team of that place. Spencer Holtz was a guest at the home of Mr. and Mrs. Charles McCullough last Saturday and Sunday.

Mrs. Charles A. Canfield and her mother Mrs. Jerry Miller of Gladwin visited Dr. Canfield here the forepart of the week.

Ross Sparks of Detroit visited his family at the home of her parents, Mr. and Mrs. George E. Smith over the week end.

Archie Morreau and Mrs. Merrow mother of John Merrow of this city were united in marriage by Rev. Fr. Culligan, Saturday.

Mr. and Mrs. G. M. Harris and Mrs. A. E. Morrish of Detroit and Mrs. Harris of Gaylord, were visitors last Friday afternoon at the H. C. McKinley home on Peninsular avenue.

The Salling-Hanson Co. saw mill resumed operations again this noon after being closed down for about three weeks to make needed repairs.

Mr. and Mrs. John Brockman entertained a party of twenty three friends last Sunday, celebrating the 68th birthday anniversary of the latter. A sumptuous dinner was enjoyed and the day pleasantly spent.

Mr. and Mrs. George Barber are moving from the Cockran house on the south side to the Swaney house, Raymond Beck and family are moving on the Beach farm in Beaver Creek township.

Mrs. Josephine Reagan, son Francis and daughter, Mrs. C. W. Skinner of Detroit were guests of Robert Reagan and family over the week end. They also visited Mr. and Mrs. Guy Peterson and family in Johannesburg.

Mrs. Ruth McConnell and children Brian and Lois arrived home from Chicago Wednesday of last week where the children had been spending most of the summer vacation. Mrs. McConnell went to Chicago to accompany them home.

H. W. Zalsman and Miss N. Polkman of Detroit spent the week end at the home of the former's parents, Mr. and Mrs. P. G. Zalsman and with Mr. and Mrs. L. N. Miks. All motored to the Wolverine and Oden fish hatcheries on Sunday.

An alarm sounded from District 5 yesterday afternoon at 1:30 called the fire department to the Grayling Laundry where a small blaze was discovered on the roof. It was caused from a spark and a small hole was burned thru the shingles.

Miss Ruth McCullough returned Sunday to Detroit where in June next year she will complete her four year course in literary work at the Detroit City College. Miss Ruth has also been attending Teachers' college from which she will graduate in February.

A number from Grayling took in the fair at West Branch last week. The weather was none too favorable, as it rained most of the time. West Branch hadn't had any rain in weeks and break of the long drought came just at fair time when the people of that county predicted it would.

Next week Wednesday Grayling will be the host to a large number of Red Cross workers' representatives of 16 Michigan Counties. They will be our guests and should be entitled to the best treatment we know how to give. Last week's workers were too should be picked up for the occasion, and flags displayed.

Dr. and Mrs. Stanley Insley and daughter Barbara Anne, and Mrs. Insley's mother, Mrs. DeLude, and her brother David DeLude, who have been enjoying a couple of weeks outing at Lake Margrothe, occupying the Cassidy cottage, returned this morning to their home in Detroit.

At a special session of the Circuit court of Oscoda county, held Wednesday, William Kamen entered a plea of guilty to the charge of murdering his sister-in-law, Elizabeth Clemens, or Eichorn, on his farm near Mio on August 18th, and was sentenced to life imprisonment in Jackson by Judge Widada. At a trial held on August 28th he said he and Mrs. Clemens had a suicide pact and that she killed herself.

Daniel Clapham, of Columbia City, Indiana, who was so seriously injured a couple of weeks ago when the automobile in which he was riding turned over on M-14 between here and Roscommon is recovering slowly from his injuries. Dr. Connell and Floyd Kenner the latter who was also injured returned last week to their home in Columbia City, accompanied by the latter's father Mr. Kenner, who was called here by the accident, and Mr. Myers who came to visit Mr. Clapham. Mr. Clapham's mother, who has been in the city since soon after the accident is remaining and will probably be here until her son is able to leave the hospital, which will be some time yet.

Grayling Creamery.

Miss Erma Craven, daughter of Mr. and Mrs. Charles Craven of Frederic and Mr. Edwin Preston, son of Mr. and Mrs. L. B. Preston of Roscommon were united in marriage in Lansing last Sunday. The bride is a popular young lady of Frederic and has a host of friends. She has taught in the Frederic schools the past two years.

Last Sunday Grayling base ball team was headed their first shut-out of the season, when they were defeated by the East Onaway team by a score of 13 to 0. The locals were unable to connect with Tubbs and what hits were registered failed to materialize, as several times with bases loaded, Grayling was unable to score. Onaway team consists of salaried players, two of whom are negroes and their hitting and holding down the positions at first and short give excellent support to the team. Again this week Grayling was defeated when they played Gaylord at the fair Tuesday. The score was 6 to 2. Laurent and Johnson wore the battery for Grayling in both games.

Many Grayling people are attending the Otsego county fair at Gaylord this week. The weather all days so far has been fine and yesterday there was a very large crowd. The exhibits of farm crops, consisting of apples, plums, peaches, potatoes, grain etc. are excellent. There are a number of fine attractions, especially the diving stunt by Spray and Hitchy. The lady dives from 80 feet in the air into a large tank of water, five feet in depth, and the gentleman 120 feet. This a hair raising stunt, and was witnessed by hundreds of people yesterday. Schrams Ramblers are playing to crowded houses at the dance pavilion at the fair grounds in the evenings. Yesterday the ball game between Cheboygan and Onaway proved to be a fine attraction, the latter winning by a score of 6 to 4. Laurent and Johnson of Grayling were the battery for Cheboygan against Tubbs and Warner of Onaway.

## CARD OF THANKS

We wish to kindly express our thanks and gratitude to our many friends for their kindly acts and favors and for the many flowers during the recent illness and funeral of Mrs. Nelson.

Sincerely,  
Martin Nelson and Family.

Divorces in England are to be made cheaper, according to a cable dispatch. It does take the English a long while to understand some of our jokes.

## HOOSIER PROMOTED

Oscar R. Lühring, former representative from Indiana, has been named assistant attorney general by President Coolidge. Mr. Lühring, a Republican, has been on the legal staff of the Department of Labor since his retirement from the house. His appointment fills the vacancy caused by the promotion of William J. Donovan to be assistant to the attorney general.

## SPAIN'S ARMY IN TRAP; DE RIVERA ASKS HELP

**Rifians Surround Tetuan—Troops Land at Athucemas.**

Paris.—The Rifians surrounded Tetuan, capital of the Spanish protectorate, and are making violent efforts to capture the city. Dictator de Rivera is afraid of a disaster on the Spanish western front in Morocco. The Rifians cut this front near Arzila for the second time, and are fighting at the gates of Tetuan, which is in danger of capture. De Rivera went to Tetuan from Athucemas bay. He ordered all available troops from the Mellin front to proceed to Tetuan.

The Spanish directorate sent an urgent appeal to Marshal Pétain, commander of the French army in Morocco, to commence the French offensive in the Quezzan sector to relieve the pressure on the Tetuan area. Madrid.—The long-heralded Spanish landing in Alhucemas bay, on the North Moroccan coast, was effected. General Morro, commanding the operation and his troops disembarked at Cedadilla, Morro-Nuevo—the headland of high white and yellow cliffs, marking the western limit of Alhucemas bay. Another Spanish force under Gen. Fernandez Perez at the same time made a feint at landing at Tetuya bay, between Cape Tres Forcas and Cape Quilates, for the purpose of drawing the enemy from Alhucemas. Whether because of this feint or not, the Spaniards at Alhucemas met with little resistance when they gained a footing at the gateway to Abd-el-Krim's territory and the rebels only remaining outfit to the Mediterranean. Spanish troops are now within five miles of Abd-el-Krim's capital.

Now that the government has announced that a man can brew a little drink in his home without being molested, it will be just like a lot of boys to decide they don't want anything to drink.

## PAINLESS ADJUSTING

Some people have hesitated in turning to Chiropractic for relief because they heard that "it is so painful." This fear need not keep anyone away from Chiropractic longer for prominent Chiropractors have at last devised a system of Adjusting that is Painless, and yet, even more effective than any previously known method. This Office is now using this system.

Thousands are depending daily upon Chiropractic for relief from all their ills. This, for no other reason than that after other methods had failed, they found Health thru Chiropractic. Investigate and be convinced.

## PROBATE NOTICE

STATE OF MICHIGAN,  
The Probate Court for the County of Crawford.

At a session of said court, held at the probate office in the Village of Grayling in said county, on the 26th day of August, A. D. 1925.

Present, Hon. George Sorenson, Judge of Probate.

In the matter of the estate of Alexander C. Wilcox, deceased.

George A. Wilcox, executor, having filed in said court his final administration account, and his petition praying for the allowance thereof and for the assignment and distribution of the residue of said estate.

It is ordered, that the 14th day of September, A. D. 1925, at ten o'clock in the forenoon, at said probate office, be and is hereby appointed for examining and allowing said account and hearing said petition.

It is further ordered, that public notice thereof be given by publication of a copy of this order, for three successive weeks previous to said day of hearing, in the Crawford Avalanche, a newspaper printed and circulated in said county.

George Sorenson,  
Judge of Probate. 8-27-3

A true copy.

**Firestone**  
will ALWAYS give  
Most Miles per Dollar

No matter where crude rubber prices may go—Firestone advantages in securing raw material, in manufacturing and distribution are always active to make good the pledge of Most Miles per Dollar.

Racing drivers—hill-climbing and endurance record holders—taxicab, motor truck and bus operators—and hundreds of thousands of car owners—are daily emphasizing the unheard-of mileage and service delivered by Firestone Gum-Dipped Cords.

Gum-Dipping is one of the biggest factors in tire performance and long mileage, making Firestone Gum-Dipped

Cords the most economical tires ever offered motorists.

The cord from the fabric mills is first delivered to a separate plant where it is treated in a solution of gum, which insulates every fiber of every cord. This protects against internal friction and heat, giving the sidewalls greater flexibility and additional strength.

Prove Firestone's many superiorities for yourself. If you have never had the safety, comfort and economy of these serviceable, long-mileage tires—go to the nearest Firestone Dealer—for Firestone only builds Gum-Dipped Cords.
